I. Summary of Learner Performance

Table 1. Mean, Standard Deviation, and Mean Percentage Score of the Learners

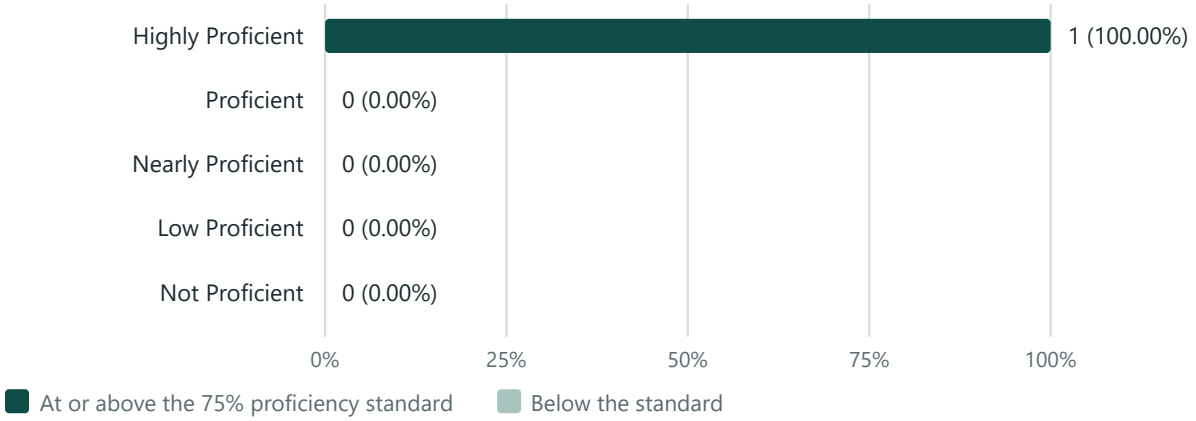

Group	N	Mean	SD	MPS	Highest	Lowest	Proficiency Level
All learners	1	19.00	0.00	95.00	19	19	Highly Proficient

Note. N = number of learners. MPS = (mean ÷ number of items) × 100. SD = population standard deviation. Proficiency levels follow the DepEd National Achievement Test criteria.

Table 2. Distribution of Learners by Proficiency Level

Proficiency Level	Score Range (%)	Frequency	Percentage
Highly Proficient	90–100	1	100.00
Proficient	75–89	0	0.00
Nearly Proficient	50–74	0	0.00
Low Proficient	25–49	0	0.00
Not Proficient	0–24	0	0.00
Total		**1**	**100.00**

Figure 1. Percentage of Learners at Each Proficiency Level

Interpretation

A total of 1 learner took the 20-item Science 7 – Quarter 1 Quiz. The class obtained a mean score of 19.00 (SD = 0.00) and a mean percentage score (MPS) of 95.00, which is at the Highly Proficient level. Individual scores ranged from 19 to 19.

Of the 1 learner, 1 (100.00%) reached the Proficient level or higher, meeting the 75 percent standard; and no learner scored below 50 percent. The largest group of learners is at the Highly Proficient level.

Recommendations

1. Sustain the teaching strategies used for this unit, since the class MPS of 95.00 meets the 75 percent proficiency standard.
2. Provide enrichment activities for the 1 Highly Proficient learner.

Notes on Computation

- Mean Percentage Score (MPS) = (mean score ÷ highest possible score) × 100, reported to two decimal places. The highest possible score is the number of items when every item is worth 1 point.
- Proficiency levels (DepEd National Achievement Test criteria): 90–100 Highly Proficient; 75–89 Proficient; 50–74 Nearly Proficient; 25–49 Low Proficient; 0–24 Not Proficient. A percentage is placed by the lower bound of its range, so 74.50 is Nearly Proficient.
- Standard deviation (SD) is computed over all learners tested (population SD).
- This report records results only; it does not compute or replace grades.
